

Point Solutions Group Launches New Website Aligned With Expanded Service Capabilities

Denver, CO, Release: January 25, 2018. *For Immediate Release*

Point Solutions Group (PSG) has launched a new website aligned with its rapid growth, expanded capabilities, and the value the company provides to both commercial and government clients. The site offers in-depth information on how PSG helps organizations achieve missions with ease and profitability, as well as insights into the company's proven philosophy and process.

Anyone interested in effectively leveraging full scale technical teams and programs to hit project and program deliverables can visit the new PSG website and explore the various capabilities and specializations the team offers.

More information can be found at: <https://pointsolutionsus.com/>

"Point Solutions Group has achieved sustainable growth in record time. This website makes it easier for us to share details about who we are now, what we can do, and examples of the impact we are having on our clients," said Founder & CEO Paige Goss.

The content featured on the site includes pages dedicated to the project-based, contingent, and managed resources PSG offers commercial entities, as well as details around why Federal, State, and Local Government agencies turn to the company as an ideal small business partner. The site also includes a job portal where candidates can explore opportunities in engineering, development, infrastructure, information security, analytics, and acquisition support.

In addition to the above-mentioned landing pages, the new PSG site also sports a personal message from Paige Goss herself. "It's important to me that I transparently share what we've achieved so far and my vision for the future," Paige explained.
